PHARMACY
Is Right For **Me**

Farewell Message

Rosie Walker, Director of Recruitment and Diversity

It is with a somber spirit and extensive deliberation that I announce my transition from my position as Director of Recruitment and Diversity here at AACP.

It has been a great honor to work with all of the talented and dedicated faculty and staff members who champion to promote pharmacy education and careers to prospective students. I am so proud of all of my professional accomplishments during my time here, many of which could not have been accomplished without your support and collaboration. Please know that I will continue to personally promote the pharmacy profession whenever possible.

AACP continues to be dedicated to supporting the Pharm4Me Champions and campaign during the transition. More details will follow soon. Please send your student recruitment questions and ideas to pharm4me@aacp.org in the meantime.
