Hello colleagues,

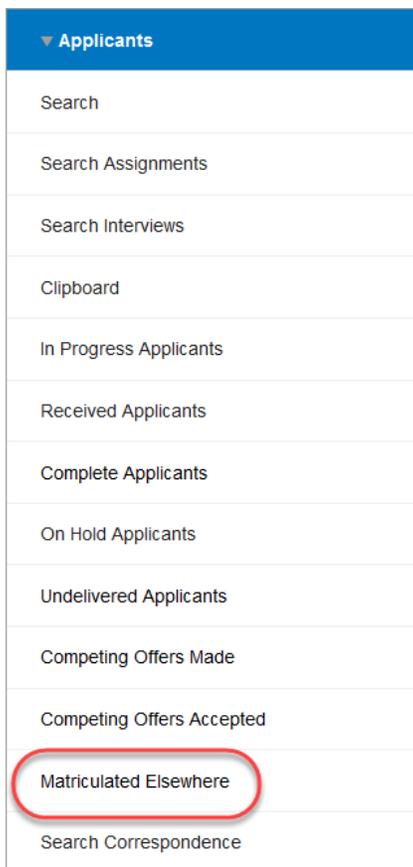

In this edition of *The More You Know: WebAdMIT Edition*, we are focusing on the **Matriculated Elsewhere Report**.

BACKGROUND

PharmCAS institutions are encouraged to keep admission decisions up to date at least weekly throughout the admission cycle, so the dynamic Competing Offers Made and Competing Offers Accepted reports are accurate. By sharing this information, programs can determine whether applicants who have accepted an offer of admission to their institution are also holding an acceptance elsewhere. More recently, PharmCAS also began to offer the Matriculated Elsewhere Report.

MATRICULATED ELSEWHERE REPORT

The Matriculated Elsewhere Report reflects applicants who applied to your institution and started classes at a competing Pharm.D. institution. The identity of the competing institution is hidden. This report is available to PharmCAS users in the Applicants section of the Menu Bar at the beginning of every cycle.

IMPORTANT REMINDER

You should only use the Matriculated Decision Code in WebAdMIT once an accepted applicant has started classes in your Pharm.D. program. If an applicant has only accepted an offer of admission, participated in a new student orientation, or registered for classes, you should not yet use the Matriculated Decision Code.

SHARING OF ADMISSION DECISIONS

PharmCAS programs must report final decision and matriculation data by September 30 for those applicants who accepted offers of admission and began classes in the professional program in the fall. The final number of matriculated decision codes entered in WebAdMIT at the end of the cycle should match the number of students enrolled in the entering class.

RESOURCES

- *Matriculated Elsewhere Report* on page 84 of the [PharmCAS School Manual](#).
- *Offers Made and Offers Accepted Reports* on pages 83-84 of the [PharmCAS School Manual](#).
- *Sharing of Admission Decisions* on pages 80-81 of the [PharmCAS School Manual](#).
