## WHAT SCHOOLS NEED TO KNOW

- Verification ensures that all applicant coursework was entered correctly and consistently. Verifiers can only see the *Academic History* quadrant of the application and verify the Colleges Attended section against the official transcripts submitted to PharmCAS.
- The *Previous Attendance at a Health Profession Program* question is within the *Personal Information* quadrant of the application, which is never seen by verifiers.
- Therefore, the onus is on the school to ensure an institution reported in the *Previous Attendance at a Health Profession Program* question was also reported by the applicant in the Colleges Attended section.
- Schools can find the *Previous Attendance at a Health Profession Program* tab within the Education panel in WebAdMIT.
